Imagine a major cyber attack.
How do we tackle it?

CYBER SECURITY CHALLENGE POLAND
APRIL 2020

THE BRIDGE FOUNDATION

CYBER SECURITY CHALLENGE PL/2020

EXCELLENCE IN CYBERSECURITY EDUCATION

CYBERSECURITY – A NEW MUST!

In the era of the Internet of Things and space colonisation we must understand cybersecurity challenges. Digital Pearl Harbour, Cyber 9/12 and deepfakes are no longer buzzwords, they impact us all: governments, private enterprise/finance and the public at large.

WHAT IS THE CHALLENGE ABOUT?

This first ever interactive cybersecurity challenge taking place in Poland is a real-life case competition aimed at developing policy and strategy responses to a multi-faceted and evolving cybersecurity crisis.

STRATEGY – POLICY – ACTION

Imagine a major cyber attack. How do we tackle it? Interdisciplinary teams of 4 to 5 students each will provide a policy response to an intensifying cyber attack. They will evaluate the technological, strategic and communication implications of the scenario and present their recommendations to a panel of experts.

UNIQUE COMPETITION

Designed to give participants from various disciplines – Law, IT, Medicine, Business and Military – a better understanding of the nature and consequences of cybersecurity threats through an evolving scenario that will take the teams through three judging rounds over two days.

INNOVATION – SKILLS – TALENTS

The challenge provides a unique opportunity to drive innovation in policy, dialogue and learning in an increasingly digitalised, interconnected and vulnerable cyber world. The competition helps develop the talents and skills of future cybersecurity professionals for the government, military and private sectors.

KEY AREAS

Security, Law and Policy Making, IT, AI, Cloud Computing, Internet of Things, Big Data, Crisis Management, Mathematics, Military, Economy, Communications, International Relations, Governance and Ethics.

YOU CAN'T MISS IT!

Agora with thought provoking lectures, stimulating discussions and interactive webcasts with leading experts.

JOIN US!

Organized by The Bridge Foundation and its partners to foster an extraordinary pool of talents and shape the next generation of cyber professionals and policymakers.

ABOUT THE BRIDGE FOUNDATION

Non-profit with special consultative status with the United Nations Economic and Social Council, that works in Switzerland, Canada and Poland to address social, economic and security challenges.

CYBERCHALLENGES TRANSCEND BORDERS – THEY AFFECT US ALL!

INTERDISCIPLINARY TEAMS IN ACTION

YOUTH CYBER STRATEGY CHALLENGE

Interdisciplinary teams of students from 16 voivodships. Different faculties: Law, IT, Medical Universities, Management and Military Academies. Awareness building and cooperation all over Poland! Wow!
