Our Courses

The KU Virtual Summer School

This year, the KU will offer its Eichstätt Summer School as a brand new virtual program. Thanks to our vast experience with innovative digital teaching and learning formats, we will offer participants the opportunity of an intensive German program with a personal atmosphere, professional teachers, exciting workshops and many entertaining virtual activities and discussions.

What will be new and different this year is that the KU Summer School is also suitable for absolute beginners. We offer German courses from levels A1 to B2, complemented by workshops and social activities as well as interactions with German students. The duration is four weeks (100 course hours), this means that participants will receive an official Transcript of Records worth 5.0 ECTS (or 6.0 US credits) upon successful completion.
